

To whom it may concern

6th June, 2011

EyeSlices® are **innovative** eye treatment pads that combine the **natural** essence of nature with **bio-innovation** to bring about an **all-in-one** solution to all common eye concerns. EyeSlices® is a global first in **cryogel polymer** technology. These dermal delivery eye masks reduce the appearance **of red eyes, dark circles under eyes, tired eyes, wrinkles** and **puffy eyes** within **5 minutes** of use. These professional spa and in-home **anti-aging** eye skin treatments lock in **moisture** and are **unique** in that they provide an **instant cooling** sensation without a fridge and are **re-usable**.

As our product is made with 100% natural ingredients, we were thrilled to have discovered a complimentary green sanitation technology.

"We have ALWAYS used Radical Waters products right from the start! We discovered Radical Waters in our very early development stages and included the product into our manufacture from the very beginning" – Kerryne Krause-Neufeldt, CEO - iSlices

iSlices have used Radical Waters Technology since 2006, as it has proven highly effective in preventing any contamination from occurring at all stages of our manufacturing process to produce a 100% bacteria-free final product. This has been achieved by applying it for the disinfection of ingredients weighing surfaces and packaging and filling machines. We also use the Anolyte solution in the final ingredient water to eliminate all possible bacteria from the water and the active ingredients.

iSlices' natural range is supplied to importers who build sales & manage our brand into retail & spa's/salons. Our international presence includes: UK, US, Poland, Germany, Greece, Cyprus, Mexico, Hong Kong, India, Middle East, Holland, Finland, Zimbabwe, Botswana and Namibia.

We would highly recommend using Radical Waters ECA technology in the skin care and cosmetics industry as a surface disinfectant as well as an ingredient to eliminate bacteria.

Yours sincerely

Kerryne Krause-Neufeldt

CEO
